Drashti Modi

Alirajpur, 457887 | 09993510473

drashtimodi21@gmail.com

As a budding web developer, I bring a solid foundation in HTML, CSS, and JavaScript, along with a passion for creating sleek and user-friendly websites. Eager to apply my skills in a professional setting, I am a quick learner with a dedication to staying abreast of the latest industry trends. Ready to contribute my enthusiasm and fresh perspective to a dynamic web development team.

EXPERIENCE

Weather App
Self-Project
- This weather app is based on OpenWeather API. By entering city name you will get details like- humidity, temperature and wind - pressure.
- Also, it will change the image according to the weather.
- website link : https://drashtimodi.github.io/weather-app/
